PROFESSIONAL EXPERIENCE

Coronation Group

Dec 2025 - Present

Frontend Developer

Lagos, Nigeria

- Architect modern user interfaces with React and Next.js for high-traffic financial applications, improving user experience and reducing page load times
- Lead development of a centralized Storybook component library, establishing a standardized UI/UX framework that all company entities adopt, streamlining design consistency and cutting duplicate work
- Collaborate with cross-functional teams in a remote workflow to deliver secure fintech solutions, strengthening data protection and meeting compliance standards

Sproutly Africa

Aug 2021 - Dec 2025

Lead Frontend Developer

Lagos, Nigeria

- Developed the full frontend architecture with Vue and Nuxt.js, enabling the fintech platform to support over 1,000 schools and improve page-load performance
- Designed reusable UI components and core features such as tuition payment tracking and loan access, boosting engagement by 35%.
- Led the frontend team by coordinating sprint planning in Jira, conducting code reviews via GitHub, and mentoring junior developers, which reduced code defects by 20% and accelerated feature delivery by two weeks
- Worked with Product and Design teams using Figma and user research to build consistent user experiences that met business goals, resulting in a 15% increase in user satisfaction scores
- Contributed to a 20% revenue increase through iterative, user-driven feature development.

Houseriver

Dec 2023 - Jan 2025

Fullstack Developer

Lagos, Nigeria

- Created a high-conversion landing page that increased user sign-ups by 20%.
- Built backend APIs integrating Alpaca and Smile ID, reducing KYC verification and onboarding time by 30%.
- Developed an admin dashboard with Vue and Node.js that enabled management of 2,000+ user accounts, improving admin efficiency and lowering error rates
- Improved SEO and performance, cutting load time by 40% and increasing organic traffic by 25%.

Glovaro

Feb 2021 - Aug 2021

Frontend Developer (Contract)

Lagos, Nigeria

- Delivered a responsive web platform for career development using Vue.js and Nuxt.js.
- Enhanced mobile responsiveness, improving retention on mobile devices by 30%.
- Applied SEO strategies and structured data to improve search engine rankings by 20%.
- Refactored legacy code for scalability and maintainability, resulting in improved system performance and easier future updates
- Participated in peer code reviews using Git and linting tools, ensuring high development standards and reducing defects, which improved overall code quality

SoftNexus

Jun 2019 - Jan 2021

Frontend Developer

Lagos, Nigeria

- Developed and maintained performance-optimized web applications with Vue.js and React.js, reducing page load times by 20% and improving user engagement
- Increased lead generation by 15% through SEO and accessibility improvements.
- Conducted usability testing with target users, identified key navigation issues, and implemented design changes that increased task completion rates by 10%
- Collaborated with cross-functional teams to implement feature-rich applications, resulting in streamlined development processes and successful project launches
- Maintained clean, well-documented codebases using Git for version control, which lowered bug reports by 15% and eased onboarding of new developers
